### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This notice amends the permit to add the waste code 20 03 03 (street-cleaning residues) to table S3.4 of the permit.

The operator is already permitted to undertake physico-chemical treatment of similar wastes at this site. We are therefore satisfied appropriate infrastructure and management systems are in place to store and treat this waste.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
